

STUDENT NAME: OMKAR DRONACHARYA

ENROLLMENT NO:- ADT25SOCB0756

PROGRAMME YEAR:- FY

BRANCH:- CSE SOC

SUBJECT NAME:- PL

COURSE COORDINATOR:-

SUBJECT TEACHER:- POOJA PAWALE

ACADEMIC YEAR:- 2025-26

SEMESTER:- EVEN

The screenshot displays a web browser window with the URL `python-iitk.vlabs.ac.in/exp/classes-and-objects/simulation.html`. The page is titled "Classes And Objects" and features a red header with the text "Analysis of Classes And Objects".

The main content area is divided into three panels:

- Demonstration:** Contains a bullet point "To Know About Classes And Objects." and buttons for "Start", "Next", and "Reset".
- Step Execute:** Displays the following Python code:

```
class pythonlab:
    pass
user1=pythonlab()
user1.name="Yash Srivastava"
user1.marks=96
user1.email=yash@pythonlab.com
print("Now we will Print the instance that user defined in the class")
print(user1.name)
print(user1.email)
print(user1.marks)
```
- Output:** Shows the execution results:

```
class: user1
class(user1) instance->name: Yash Srivastava
class(user1) instance->marks: 96
class(user1) instance->email: yash@pythonlab
Now we will Print the instance that user defined in the class
Yash Srivastava
yash@pythonlab
96
```

The browser's taskbar at the bottom shows the Windows logo, a search bar, and various application icons. The system clock indicates the time is 09:45 on 05-02-2026.

The screenshot shows a web browser window with three tabs: WhatsApp, Virtual Labs, and New Tab. The address bar displays the URL: `python-iitkvlabs.ac.in/exp/classes-and-objects/simulation.html`. The page header includes the Virtual Labs logo, the title "Classes And Objects", a five-star rating, and buttons for "Rate Me" and "Report a Bug". A prominent red banner across the top reads "Analysis of Classes And Objects".

The main content area is divided into three panels:

- Demonstration:** Contains a bullet point "To Know About Classes And Objects." and three buttons: "Start" (disabled), "Next", and "Reset".
- Step Execute:** Displays the following Python code:

```
class pythonlab:
    pass
user1=pythonlab()
user1.name="Yash Srivastava"
user1.marks=96
user1.email=yash@pythonlab.com
print("Now we will Print the instance that user defined in the class")
print(user1.name)
print(user1.email)
print(user1.marks)
```
